The movie of the nightmare before christmas

The end of the year is usually such busy weather that it's hard to put aside a few hours to just relax in front of the TV. On top of that, there are classic Christmas movies that you feel need to be watched every year, like *White Christmas*, *Miracles at 34*. But if you manage to have more hours to fill, any of these more modern Christmas-themed movies will help lift your spirits and put you in a holiday mood. These are the top ten Christmas movies released since 1980.

Universal Pictures How can we not start with this classic? You're going to take your eye out! Anyone who hoped and wanted and dreamed of that one gift, that one item so special will do nothing else, will absolutely love the Christmas story. *Ralphie* (Peter Billingsley, director of *Couples Retreat*) wants a Red Ryder BB gun, but his parents keep telling him it's too daring. But that doesn't stop *Ralphie* from driving his poor parents crazy with an active gun campaign. Warner Bros. Probably the first movie that pops into your head when you think of Christmas movies isn't *Gremlins*, but a horror comedy by writer Chris Columbus and director Joe Dante from 1984 is actually Christmas-themed. These vicious little creatures take over a small town during one horrible night during the holidays. While it's horrifying of touching, it's a nice change of tone for a Christmas movie. Bill Murray's Paramount Pictures *Frank Cross* hates Christmas and everything to do with the holiday in this modern retelling of Dickens' Christmas carol. Childhood memories combined with a failed relationship with the love of his life have made this TV producer uncomfortable with guys who will be around during the holidays. But when he's visited by three ghosts, he changes his mind dramatically. Warner Bros. When a squirrel emerges from a Christmas tree, it never misses sending viewers into fits of uncontrollable laughter. All Clark Griswold wants is for this family (even those members he didn't invite) to have a great vacation, but almost anything that could go wrong goes wrong. 20th Century Fox The first film of the series (there were five in total, which is about four too many) is still the best and still deserves to be seen during the winter break. Written and produced by John Hughes and directed by Chris Columbus (*Harry Potter and the Odaja of Secrets*, *Rent*), *Home Alone* introduced us to the dysfunctional McCallister family and their youngest son Kevin, played by Macaulay Culkin who will forever be remembered for the surprised pose on the film's poster. Kevin left home (hence the title) for Christmas and after the initial joy of being away from this family wear it out, he realizes that even if they get on his nerves, he really loves them all. Walt Disney Pictures Who can resist the Muppets even when it's not Christmas? All the famous characters, including Kermit, Miss Piggy and Fozzie Bear, help bring Dickens' Christmas song. *Life in this G-rated family friendly film* from 1992. Also included is the wonderful Michael Caine as Scrooge. Touchstone Pictures Like your holiday movies a little twisted? Do you like Tim Burton? How about bite musicals? If you answered yes, then stop-motion *The nightmare before Christmas* should be in your alley. Jack Skellington is supposed to be king of Halloween, but he's fascinated by Christmas and wants to take over that holiday by kidnapping Santa Claus. Universal Pictures One of the best written romantic comedies of the past few decades happens to have a Christmas theme. Eight stories collide in this touching, funny and very entertaining view of love, lust, loss and relationships. With Hugh Grant in his role as British Prime Minister, Keira Knightley as the new bride, Liam Neeson as the newlywed widowed father and Bill Nighy as an aging rock star, *Love Actually* has a lot of heart and lots of interesting characters to get into. Will Ferrell's New Line Cinema is raised by Santa Claus and thinks he's an elf in this hilarious comedy directed by Jon Favreau (*Iron Man*). After being kicked out of the North Pole for being too tasteless to perform elf duties, *Buddy* set out to find his real father in New York. But when he meets his biological father, things don't go smoothly. Being raised by Santa Claus creates a lot of problems in the real world where most people don't believe in a jolly old elf. Dimension Films *Billy Bob Thornton* is a bad, bad Santa Claus. He smokes, he drinks, he attacks women, and he has very, very bad hygiene. As far as we know, none of these traits apply to the real Santa Claus. Thornton plays Willie, a seasonal Santa hired to work at the mall alongside his collaborator Marcus (Tony Cox). Marcus may fit the physical characteristics of an elf, but he's just as R-rated as Willie. But Willie changed his mind when he met a beautiful bartender and troubled kid who truly believes in him. Disney/Universal/20th Century Fox When the soror bells ring, snow glistens and new bird tracks, you know it's time to pull out the Christmas goodies. While most of us wait at least until after Thanksgiving to deck the halls and put up a tree, it's never a bad idea to start getting into the holiday spirit a little early. Say, mid-October? Whether you're somewhere snowing or not, it's time to start taking advantage of the winter wonderland outside your window, whatever that looks like. One of the best things about the holiday season is being able to spend quality time with your family and friends that you wait for all year. What better way to do that than curl up on the couch, catch a comfortable blanket and stream a Christmas movie marathon? If you're looking for comedy, romance or even horror, there's a Christmas movie for you, and since the COVID-19 pandemic is still at full strength, this is the perfect festive activity that doesn't make you have to leave the comfort of your own home. Now, bake some cookies, hang and put put Elf on the shelf. Here are the 25 best Christmas movies to watch while dreaming by the fire. Commercial - Continue reading below
